Message from our Principal

Dear Parents and Carers,

As our current students become adults, they will enter a world where routine cognitive and physical tasks are performed by AI (artificial intelligence). The human skills (required for non-routine tasks), like caring, collaboration, creativity, and problem solving are those that will increasingly be valued by employers as technological advances continue.

The COVID circumstance has resulted in the speeding up of this transition and an increasing adoption of technology across industries. Education is no different and in order to respond to the opportunities presented we will increasingly need to project our thinking further and further forward.

The adoption of AI and VR (virtual reality) technologies in the teaching of the Australian Curriculum will support teachers' work and students' learning in many new ways. As adults, who have grown up in very different times, there is no doubt that our ideas of schooling and what it looks like will be challenged, and hopefully invigorated, over the coming years.

Good at learning and good at life

In the adoption of these new technologies the focus for all schools remains on graduating students who are literate, numerate and curious.

Bandwidth upgrade

The Department of Education is embarking on a \$190 million upgrade to boost bandwidth in schools and communities across the state. The first phase of this work will increase average internet speeds to 1Mbps per student. This is at no additional cost to schools and we are one of the first schools to receive this upgrade. After the mid-year break, our internet speed will be 40 times faster than currently. Phase 2 will see an increase to an average of 5Mbps for each student by 2025, which is 200 times faster than the Department's previous standard.

New Subjects Semester two

At our assemblies over the last 2 weeks, I have spoken with students about the exciting opportunities that they will have next semester. This includes the introduction of our new specialist subjects: entrepreneurial sustainability and drama. Both subjects develop the above-mentioned skills and dispositions that will support our students to be successful now and into their futures.

Along with the addition of these subjects, Mrs Williams will work with classes from year 4 to 6 to trial teaching and learning technologies for implementation in 2023. A variety of ways of working will be trialled with students. Staff will be trained and assisted in using these ways of working and we will continue to visit partner schools to accelerate this learning.

Investment

To support this endeavour, we have purchased an additional 30 new iPads and our Year 4-6 classrooms are being provided with Apple TV's and pencils to allow greater device mobility and connectivity, and to improve the interactivity of our current device fleet. Over the coming 6 months, this investment will facilitate teacher and student experimentation with these new ways of working we will adopt more fully in 2023.

Implementation model

The goal is to provide additional opportunities for us to engage, motivate and stretch students at the appropriate level of challenge and encourage them to take ownership and power their own learning. When this occurs, so much more is achieved.

We are very conscious in developing our model, that a one size fits all approach is not appropriate and we certainly will not be adopting a secondary school model applied in a primary context. While the initial focus is on Yr 4-6, our P-3 students and teachers will also be part of a later phase of this process. They will use similar technologies, but the model of implementation will differ and be age appropriate and aligned to the learning goals in their stage of development.

The implementation of these ways of working is well advanced in other state primary schools and we are thankful for the generosity of colleagues in assisting our professional learning and helping us to design a model and resources appropriate for HPSS.

Further information

Next term, I will communicate further with parents regarding the steps we have taken so far, the plan for the remainder of 2022, and the architectural, infrastructure and implementation challenges we

School hours & bell times	
<i>Office hours 8am-4pm</i>	
Monday to Friday	
8:45am	Arrival bell
8:55am	Start classes
10:55am	End first session
11:05am	Finish eating – play
11:45am	End play
1:15pm	End second session
1:25 pm	Finish eating – play
1:55pm	End play
2:55pm	School finishes

Our School Rules are:

- Be safe
- Be responsible
- Be respectful

We act safely, responsibly & respectfully by following The Five 'Cs':

- Courtesy
- Consideration
- Co-operation
- Commitment
- Courage

are overcoming. This will include the opportunity for parents to attend an information session and to ask questions of key staff.

Over the next term, you will slowly hear children start to talk about the different experiences they are beginning to have at school. As staff, we look forward to the learning opportunities that improved technology access is able to provide for all students; to access a wider variety of engaging curriculum challenges and to be creative in demonstrating their learning.

Requests for information and visits to schools by external therapists

All requests for information by an external person/agency/therapist/health practitioner, as well as requests for external (non-departmental) therapists to visit students at school during school hours, must be approved by the school's Leadership Team. This process is in accordance with the Department of Education's policies and procedures.

All parent requests must be emailed to your child's class teacher, who will then forward them to the appropriate member of the school's Leadership Team for approval. This includes:

1. Requests for information from an external provider/health practitioner:
 - this could come directly from parents or via a specialist
 - this could include: letter of observations for medical appointments, request to complete questionnaires
2. Requests for an external therapist to observe a student and/or provide therapy support at school, during school hours:
 - this could be an Occupational Therapist, Psychologist, Speech Therapist etc.

Thank you for your understanding that official approval must be received from the school before an external provider will be permitted on site. Providers/therapists who attend our site without prior approval will not be granted access to students.

Important Date for Prep 2023

Enrolment Information Session

Wednesday, 20th July, 2022 at 9.15am in the School Hall
(Entry via Wilbur Street)

Agenda

9:15-10:00am Information Session
10:00-10:30am School Tour with Student Leaders

Message from our Head of Curriculum

Holland Park State School Excellence Expo 2022 Open Science Information Session - Year 1 to Year 6

Theme

Connecting with Country: How can we make ourselves and the world in which live healthier?

(the lands, waters, skies, animals, plants and natural and man-made phenomena)

Thursday 22nd June at 1:15pm in the School Hall

(Entry via Wilbur Street)

Agenda

Students who have nominated for Open Science this year and their parents/caregivers are invited to attend an information session next week. Our school CSIRO Scientist in Schools partner, Dr Charlene Willis, will provide information to answer your questions about how to design and conduct your own science investigation as well as suggestions for presentation. You will learn about the scientific process including how to write an investigation question and method, how to record results and write a discussion and conclusion.

This session is a must for all entrants and we will have time for questions at the end of the session. This is the third information session that has been offered. If students were unable to come to any of the sessions, please contact Mrs Whittaker for details (jwhit35@eq.edu.au). The PowerPoint that was shown during the sessions is available on the school website.

After the session, Dr Charlie will be available for the rest of the afternoon until 3pm to work with individual or small groups of students who require some assistance to develop their investigation question.

- ▶ The final date for submission of completed entries will be 29th August.
- ▶ You can present your final Science Investigation as a written report, a PowerPoint presentation or a Video Recording.

Your OPEN SCIENCE INVESTIGATION should include the following:

What to think about	Planning Guide	Planning and Conducting
Choose a title for your investigation	Make it interesting and catchy	Prepared at home prior to nomination
Aim	A statement beginning with "To" explaining what you are trying to find out.	Prepared at home prior to nomination
Question	What is the question you are investigating?	Prepared at home prior to nomination.
Hypothesis – what do you think will happen?	What do you predict will happen?	Prepared at school.
Method – what did you do?	Choose one variable to change. Remember to keep the other variables the same. Record what you did step by step.	Prepared at school.
Results – what happened?	Use pictures, words, photographs, tables or graphs to show what happened. Use scientific language.	Students may choose to conduct the investigation at home or school with support, record results, take photos or video record.
Discussion – why did it happen? What could have caused your results? Did anything go wrong?	Discuss your observations and make inferences as to why they happened, using scientific knowledge and language.	Prepared at school.
Conclusion – did you find what you were looking for?	Talk about whether you got the results you expected. My results supported/didn't support my hypothesis because...	Prepared at school.

Julia Whittaker
Head of Curriculum

Excellence Expo Update

Thank you to all students who nominated for open art. All the open art teachers will meet with students before the holidays. All students will commence open art in week 1, term 3. The open art mentor (teacher) will let the students know what lunch breaks they will complete their open art in and in what room.

All students need to be prepared and ready to bring their art materials in the first week back after the holidays. By Monday, 11 July all students will need to bring in

- All art materials in a bag or box labelled with your students' name. If materials are not brought in the first week, your student may not be able to participate.
- A general plan/idea of what your open art entry will be based around the theme 'Recycled Art: Creating the future from the past'. You may need to have a discussion with your student prior to week 1.

Please be aware that the students have up until the 19th of August to complete their open art task. The task must be completed at school and not at home.

Thank you

Debra Ybarlucea
Head of Curriculum

Maths Teasers

1. A man has to get a fox, a chicken, and a sack of corn across a river. He has a rowboat, and it can only carry him and one other thing. If the fox and the chicken are left together, the fox will eat the chicken. If the chicken and the corn are left together, the chicken will eat the corn. How does the man do it?
2. You have a basket containing ten apples. You have ten friends, who each desire an apple. You give each of your friends one apple. Now all your friends have one apple each, yet there is an apple remaining in the basket. How?
3. There is a pole in a lake. Half of the pole is embedded in the mud at the bottom of the pond, another one third is covered by water, and 7 feet is out of the water. What is the total length of the pole?

Message from our School Captain

Organised by a prep teacher, Mrs. Sparshott, Prep Club is a group of Year Six students whose job it is to help accommodate the Prep Students (5 to 6 years old). Every day at break time, 4 to 6 students walk down to the Prep Playground and set out the toys and safety cones. The Prep Students are then released to the oval and help if anything is needed during the break, such as a lost meal, grazed knee, or a toilet trip. If the problems are too big for the students to handle, they can report to the teacher on duty. At the end of break the students pack up all the toys and cones. Prep Club is an important organisation in the school as it helps the preps get accustomed to their school environment and stay safe in the playground.

Norah H.
School Captain

Message from our House Captains

Hi, my name is Kendall B., and I am one of the Bowen House Vice-Captains, as well as the Aboriginal and Torres Strait Islander Cultural Leader for 2022. I'm looking forward to working with my peers in many different aspects in 2022. I am a friendly, warm-hearted, generous, competitive, and easy to approach student. As an aboriginal student, my cultural heritage is an important part of who I am. I would like to empower other ATSI students to engage in school in a positive way. I love being one of the Bowen House Captains, as sport is one of my great passions. I play many different sports including Rugby League, AFL, Touch Football, and Cricket. I would love to see Bowen take out all the trophies at this years' sports carnivals. I want other students to love sport as much as I do and would love to promote it to students in all year levels.

Kendall B.

Bowen House Vice-Captain

Hello, my name is Lachlan B. and I am the 2022 Bowen House Vice-Captain.

There are many things I love about being the Bowen Vice-Captain. There is the fact that I am a team player, a representative for my house, and I take pride in the fact that people chose me as their vice-captain this year.

Being a house captain is not just about fun and games. Oh no, there is much more to it than that. There are many responsibilities for a house captain such as weekly schedules in the sports shed and meetings at breaks with Mr Walker. However, the main duty as a house captain is to support your house and cheer them on (Go Bowen!).

You don't need to be the most athletic to be a house captain, take me for example. I am certainly not the fastest nor the strongest in the grade and even teachers were shocked that I became a house captain. However, here I am, and you can do it as well.

So sign up, strive for it and never give up. Who knows, this may be the role for you ☺

Lachlan B.

Bowen House Vice-Captain

News from our Student Council

The Student Council will be holding a Pyjama Day in the last week of term, Wednesday 22nd June. Come dressed in your favourite school appropriate pyjamas. Remember, shoulders need to be covered, length needs to be appropriate for school and closed in shoes need to be worn (no slippers or Ugg boots).

We are asking for a gold coin donation. As our Student Council is now cashless, there are two possible options for donating.

Option 1: Donate a small amount directly into the school's account as each event happens throughout the year. We recommend approximately \$1 or \$2 per child.

Option 2: Donate a lump sum amount to cover all future fundraising fun days for 2022. We are aiming to hold approximately 4 events over the year to raise money for both our school and charities.

Payment options include:

Bank Transfers via EFT:

Account Name: Holland Park State School

BSB: 064-112

Account Number: 00090133

Please use student's initial, family name and activity as the reference. If you are paying for more than 1 student please include the year level, student's initial and family name. E.g. J&B Smith, *STC*.

EFTPOS:

Finance Office has an EFTPOS Machine available during school hours

Credit:

If you have a credit on account, please ask the Finance Office to utilise it

News from our Eco Warriors

Great Eco Reads

Happy Friday on behalf of the eco warriors! This week we wanted to give you a bit of information about some books with amazing environmental messages. The age groups of these books range from 5 to 13 so there will definitely be something for your kid!

Title: Earth Friends Fair Fashion

Author: Holly Webb

What's it about: A girl called Maya whose mum is a world-famous singer and loves fashion. Maya is passionate about doing what she can do to save the environment and presenting to her class a project on fair trade to raise awareness about companies or organisations that don't allow children Maya's age or younger (11) to work for them. Most of her class is doing chocolate, as her teacher used that as an example, but her friends and her think outside the box by doing fair trade fashion. The problem is that Maya doesn't want anyone to find out who her mum is because she wants to be herself, Maya, and not be recognised as India Kell's daughter. The question is: will she manage to pull it off? This book is for ages 8-11 and is a very enjoyable read!

Title: Dear Greta

Author: Yvette Poshoglian

What's it about: A girl called Alice who lives in Sydney with her family. When her Nene (grandma) has a heart attack her life turns upside down – Nene moves in with them, but more importantly into her room, so Alice has to move out into the sun room which is all musty and dusty because it was previously used as a storage area and has no door. What makes matters worse is that she gets a school assignment

to write letters to Greta Thunberg about what she does being a climate change activist. But Alice takes her own spin on this by telling this whole story using her letters and she actually sends them to Greta. If her life couldn't get any worse, she gets put in a group with her best friend Sami and her arch nemesis Jayden and his trusty assistant Lance to work on a solution to save Harmony Day. (Because of COVID they couldn't have harmony day because sharing all the food isn't COVID safe). Will she be able to save Harmony Day and keep all her friends by her side? This book is for ages 10-14 and is a very educational read about Greta Thunberg and what she does to save the planet!

Title: Rainbow the Koala; Surviving the Wild

Author: Remy Lai

What's it about: This is a graphic novel about a baby koala who grows up being looked after by his mother but soon has to leave. He walks around in the wilderness for hours without finding a home or shelter and soon smells smoke in the air. Will the koala be able to escape in time? This book is for age groups 5-9 and is a useful tool to teach little kids important environmental messages!

These books are only scratching the surface of the many amazing books with inspiring environmental messages, like the Lorax, whose message of chopping down trees is still very important to this very day!

Have a great weekend!

Pippa M

Eco Warrior Leader

News from Prep (PMC and PSB)

Digraph fun

We've had some spelling fun recently introducing the digraphs ch, sh and th. We love the students showing you the actions of a chicken for 'ch', saying 'Ssh!' for sh, and giving a thumbs up and the number three for 'th'.

Our ch, sh, and th crowns are shining bright. Don't they look a magnificent sight!

Look at our crafty creations that enhance the learning of these digraphs:

'sh' - Sharks are shouting.

'ch' - Chickens are chirping.

'th' - What do you think about our thongs?

Be safe

Be responsible

Be respectful

Interschool Tennis Cup

The Interschool Tennis Cup was held on Sunday 12th June at the David Turbayne Tennis Centre, East Brisbane.

The event is a participation-based grassroots tennis event run by our school tennis provider – Tennis For Kids. Open to all children who have received tennis coaching (from any coach), the event was a great opportunity for kids to play alongside their friends and represent their school.

Almost 200 children from 11 schools participated on the day. Holland Park State School was represented by 30 players across Red, Orange and Green Ball divisions.

All the kids demonstrated wonderful sportsmanship and represented the school with honour. And for the record we are pleased to announce the following results for Holland Park State School.....

Red Ball Division (Grade 1-3) – WINNER

Orange Ball Division (Grade 4-5) – FIFTH

Green Ball Division (Grade 5-6) – WINNER

Overall Champion School - WINNER

Congratulations to all our representatives – Not only on the result but also on your sportsmanship and behaviour on-court.

News from HPSS Chess

GARDINER CHESS

Last Thursday, our school competed in an Interschool Chess Tournament at Birkdale South State School. We had 28 students competing in 7 games across the day. Two students received a merit for getting 4 1/2 wins or more. Unfortunately, no students won medals but everyone enjoyed it greatly. Overall it was a great tournament and we wish to compete in many more.

Ashwin P.

HPSS Chess Captain

There were 200 students competing from many different schools. Our students competed very well with 2 students Leon 3HE (left) and Dean 3/4SC (right) receiving a merit ribbon. It was a fantastic day and all students represented our school with pride.

Mrs S

Chess is on a Thursday morning in the library from 8.00am to 8.45am. If you are interest please email me lschi21@eq.edu.au for a free trial. We have three coaches, Gary (Advanced Coach), Barclay (Intermediate Coach) and Dianne (Beginner Coach) this term. Mrs Smith can escort Preps to Prep at the end of the lesson.

LUNCH TIME CHESS

Chess Club is on Wednesday first break in the library, year 1 to 6 students welcome. Our Chess Captain's Ashwin and Takeru will be there to help you learn chess.

CHESS QUIZ

Last question and answer

Can you capture two pieces at once?

Answer: No, only 1 piece.

Lea-Anne Schilg

Year 1 Teacher

HPSS Chess Coordinator

Message from our P&C

What's On

Saturday 18th June- Uniform Shop open 9am-11am

Wednesday 22nd June- P&C Meeting 7.30pm in S block

School Fete Information session

We will be holding an information session to discuss all things Fete. We are hoping to start the ball rolling on preparations for the School Fete 2023. This meeting will take place on Thursday July 28th.

Come along and contribute with suggestions and advice or ask questions.

More information will be coming soon.

Uniform Shop

Just a reminder the uniform shop is located in S Block with access via Gate 1 on Abbotsleigh street, by Meals on Wheels. The shop is open on Saturdays 9-11am. Online orders placed by 5pm on Tuesdays will be delivered to classrooms on Wednesday.

Team Bio

This week we would like to share a little with you about Sharon, our Uniform Shop convenor:

My name is Sharon and I have taken over the running of the Uniform Shop down underneath S Block (Stem Building). I started at the end of April and was shown the ropes by Louise Hope the P&C President. I'm loving the challenge and feel this is the exact fit for me at this time of my life. I come from a Corporate background with one of the big four banks and it's where I met my wonderful husband almost 30 years ago. I have a gorgeous 13 year old son who went to HPSS from Prep to Year 6 and completed his last year as Wilson Captain. The Uniform Shop is open every Saturday from 9.00-11.00 so why not come in and say hi.

Facebook

Be sure to follow the school Facebook page to be kept up to date with events.

The P&C Executive Team

The P&C Executive Team

Community Advertising

We are now offering learn to swim & squads for both adults & children in the community at Holland Park SS pool. Learn to swim for kids runs Monday to Friday from 3.15pm to 5.15pm. Squads run Monday to Thursday afternoons plus Monday & Wednesday mornings before school.

And there is something for the parents too! If you enjoy swimming to keep fit, we have 2 levels of adult squad to suit all abilities. Plus, we run private lessons for those who would like to learn how to swim or need some tips on how to be more efficient in the water for that next triathlon.

Take a look at our website to find out more: <https://www.elementswimming.com.au/>

Drama Classes

BAZILgrumble

CREATIVE ARTS EXPERIENCES

Monday Afternoon Drama Classes at Holland Park State School
Our drama classes for Shining Stars (Prep to Year 2) and Masterclass (Year 3 to Year 6) are held every Monday from 3.15pm to 4.25pm.
Term 3 runs from 18 July to 5 September 2022 (eight weeks).

- ★ Do you want your child to have a clear and expressive voice for school oral presentations?
- ★ Are you looking for an activity for your child that is both fun and educational while exploring imaginative thinking and teamwork?
- ★ Drama encourages confidence, communication, and imagination!

John Bazil Grumble for Semester 3, 2022 drama classes as we explore our themes

Fractured Fairy Tales & Revolting Rhymes
"If you want your children to be intelligent, read them fairy tales; if you want them to be more intelligent, read them more fairy tales."
- Albert Einstein

In Semester 3, 2022 students are focusing on Fractured Fairy Tales and Revolting Rhymes. A fractured fairy tale takes a classic fairy tale or children's story and adds a twist, changes characters, or makes it more modern. One such example is in the book, Revolting Rhymes, when the famous author Roald Dahl uses rhyming verse to modernise traditional tales.

In term 3, students will have a great deal of fun exploring a range of fun and interactive storytelling and performance techniques in our supportive drama classes. Teachers will particularly focus on developing students' characterisation, physical communication, vocal expression, clarity and projection. In term 4, students will develop skills in the learning, onstage presence and participating as an ensemble as we create a performance to share with friends and family. By blending narrative and verse, the hilarious performances will be filled with opportunities for our students to shine on stage! John Bazil Grumble for semester 3 drama classes and help your child to succeed by enhancing their confidence, communication, interaction and imagination!

Registrations & more information available on our website at www.drama.bazilgrumble.com.au
NO OBLIGATION TRIAL LESSON available to new students. Children go straight to drama from school registration & after school care collection and drop-off available.

*"Our child has just completed her first term of drama and loved the confidence she has improved, and she has become more expressive. That was a pleasure to see her so happy."
-Parent, Catherine, State School*

*"I feel my child has benefited immensely from your drama program, developing self-confidence, public speaking skills and drama knowledge. If I have been a pleasure to see her so happy."
-Parent, Catherine, State School*

ABK HOLIDAY WORKSHOPS

Based at St Matthew's Hall in Sherwood, we offer 3-hour sessions for \$60 a session. Each session includes a range of active and creative activities with children taking home a generous gift bag of resources that they have made throughout their sessions. All staff are fully qualified ABK instructors, vaccinated and have blue cards. Staying for both sessions, we will look after the children during the 1 hour break for free.

Zooper Doopers, fresh fruit and unlimited fresh popcorn is also provided for children throughout the program.
